

Product stock history

1. The **Product Stock History** feature allows you to view detailed records of all stock-related transactions for a specific product, including:

- Sales
- Purchases
- Opening Stock
- Transferred Stock
- Stock Adjustments

You can also **filter the history by date range** to analyze stock movement over a specific period.

How to View Product Stock History

1. Go to **List Items**
2. Click on the **Actions** dropdown for the desired product
3. Select **Product Stock History**

The screenshot shows the 'Item Catalogue' interface in Vault Space. The table lists various products with columns for Action, Product image, Product, Business Location, Unit Purchase Price, Selling Price, Current stock, and SKU. The 'Actions' dropdown menu for the 'Choki Choki Pack' product is open, and 'Product stock history' is highlighted with a red box.
